ABOUT US

Established in 2020, **EASYTECH IT SOLUTIONS PRIVATE LIMITED** is a company providing cutting-edge tech solutions. Our team of seasoned professionals, having over 18 years of industry experience, has successfully served more than 3.35 million consumers across 87 towns with our innovative Spot Billing Solution in the energy sector—a solution trusted for over a decade. This breakthrough approach has not only boosted our business revenue but also reduced our client's operational expenses by more than 53%.

Beyond this success, our experts have implemented over 50 critical IT projects and solutions across India in the past 18 years. Today, with a robust team of more than 2,000 professionals, we continue to offer a comprehensive range of IT solutions and AI-enabled services. Since our foundation, we have evolved continuously to meet our client's growing demands and consistently exceed their expectations.

In our busy lives, we often forget to take care of our health. But when health issues arise, it can leave us feeling helpless—especially without the right information or support as per our needs. That's why EasyHealths is here. Our easy-to-use, AI-driven, app-based solutions.

No matter where you live, a busy city, or a remote village, with **EasyHealths**, taking care of yourself and your loved ones has never been easier. You can book doctor appointments, get affordable blood tests at home, ask for a second opinion, or even call an ambulance—all with just a few taps.

EasyHealthsBiz—Bringing Healthcare Management Easy and Affordable for You

EasyHealthsBiz is a simple, easy-to-use app-based healthcare solution built for all healthcare service providers—Doctors, Clinics, Diagnostic centers, Nursing Homes, Hospitals, and other Healthcare Service providers. Whether you run a small village clinic or hospital in a city, managing healthcare becomes smooth and stress-free. Allowing you to focus on what truly matters—your patients.

Live AI-Driven Smart Business Dashboard - EasyHealthsBiz

With EasyHealthsBiz, experience the power of a Live AI-Driven Smart Business Dashboard that gives you total control over your operations.

Track every rupee, every action, and every staff member—anytime, anywhere.

★ Live Business Insights

Instantly know how much you've earned, paid, or deposited in bank —real-time data, no guesswork.

★ AI-Powered Analytics

Understand trends, detect anomalies, and get actionable insights without lifting a finger.

★ Staff-wise Monitoring

See who's doing what, where, and how efficiently—manage like a pro.

★ Anywhere Access

Whether you're in the clinic, on the road, or at home—your business moves with you.

EasyHealthsBiz isn't a software—it's your business Solution.

Top 10 Powerful Reasons Why Individual Doctors & Private Clinics Should Integrate with EasyHealthsBiz

A. Run a Full-Fledged Clinic with or Without Staff

Use EasyHealthsBiz to run your private clinic independently. From bookings to reports, everything can be managed digitally—even with zero staff.

B. 24x7 Online Discovery & Appointments

Patients can discover your clinic and book appointments at any hour, boosting visibility and ensuring no missed opportunities.

C. Add Additional Doctors, Chambers & Timings at Minimal Cost

Easily expand your services by adding more doctors or chambers to your profile. You control schedules, slots, and charges—pay only for what you use.

D. Assign a Clinic Assistant for Management

Appoint a trusted assistant to manage bookings, reports, and patient queries via their own secure dashboard—without exposing your personal number.

E. QR Code Check-In & Queue System

Allow patients to scan a code at your door, get their serial number, and wait without crowding. The app updates them when it's their turn.

F. Auto Scheduling with AI Assistance

Let AI optimize your appointment flow based on past patterns and patient preferences, ensuring efficient use of time and better patient satisfaction.

G. Integrated Reports, Audio Advice & E-Prescriptions

Send prescriptions, documents, and voice advice directly to patients from your mobile—no paperwork, no confusion, just clear instructions.

H. Secure In-App Chat with Patients

Exchange reports, text messages, images, and voice notes with your patients—without ever revealing your personal contact number.

I. Follow-Up Reminders & Second Opinion Bookings

Automatically remind patients of upcoming visits or invite them for follow-ups. Also offer paid second opinions to boost your professional reach.

J. Doctor Performance Dashboard & Growth Insights

Track how your clinic is performing – number of patients, top slots, repeat visits, peak hours, and much more. Know when and how to grow.

10 Big Reasons Why Every OPD and Polyclinic Must Use EasyHealthsBiz – For Faster Work, Happy Patients, and Growing Income!

1. 24x7 Online Booking & Discovery

Appear in front of local patients searching for doctors or clinics anytime. No need to spend on marketing — your OPD is live 24x7 on the EasyHealths app.

2. AI-Powered Specialist & Symptom-Based Booking

Patients can find doctors based on symptoms or specialization, ensuring more relevant and targeted appointments for your clinic.

3. QR Code Magic

Patients need to scan a QR code and get a token number. No front desk staff is required—smooth, silent, and fully digital patient flow.

4. AI-Based Easy & Smart Scheduling

Auto-generate optimal doctor schedules based on past patient trends, preferred timings, and expected load — reduce no-shows and wait times.

5. Real-Time Doctor Status & One-Click Notifications

Notify patients instantly if a doctor is arriving, delayed, or absent. Auto updates for chamber cancellations or live doctor status.

6. Second Opinion Consultations

Let patients consult with your senior doctors for second opinions — adds a premium layer to your clinic's services.

7. Next Visit Reminders & Patient Follow-Ups

Automatically send visit reminders to patients based on doctor's advice or past bookings — improve loyalty and repeat visits.

EASYHEALTHS

8. AI-Powered OPD Performance Analytics & Suggestions

Get intelligent reports with recommendations — top-performing doctors, low-performing days, booking trends, and actionable insights to grow.

9. Doctor-Chamber Matching & Discovery

Easily find available chambers for your doctors or available doctors for your clinic. Create win-win setups between clinics and professionals.

10. Multi-Doctor & Clinic-Level Performance Leaderboard

Track best-performing doctors, most booked services, and your clinic's performance growth compared to peers in your area.

Special Benefits for OPDs & Polyclinics:

- Manage everything from mobile — no laptop or desktop needed.
- Increase patient flow without spending on ads.
- Run staff-free or with minimal staff.
- Grow your clinic digitally and improve trust among patients.
- AI-powered tools to improve revenue and reduce workload automatically.

Integrated Patient-to-Clinic Chat Support (With Privacy)

Patients can send lab reports, prescriptions, images, text messages, and voice notes directly to the clinic. Our unique in-app chat keeps personal phone numbers private, ensuring complete confidentiality and seamless communication.

EasyHealthsBiz: The Best Friend for Your Lab – Here's Why :

1 Digitize Your Entire Diagnostic Business — Big or Small

Whether you're running a single lab or a multi-location diagnostic chain, EasyHealthsBiz enables you to operate like a fully equipped tech-driven service provider.

2 Online Discovery, Test Booking & Packages

Patients can find your lab, view test packages, and book appointments directly via app—day or night, even during non-business hours.

3 Create Custom Test Profiles & Health Packages

Easily configure and promote your diagnostic profiles, combo packages, and discounts to increase engagement and boost test orders.

4 Real-Time Booking Status & Operation Updates

Send automatic status updates to patients for every step—booking confirmation, sample collection, lab processing, report ready, etc.

5 App-Based Report Delivery with Zero Manual Work

Upload reports and notify patients through the app—secure, instant, and trackable. No more calls or printouts unless needed.

6 Automated Home Collection Workflow

Assign collectors, track live location, confirm collection via OTP, and allow users to schedule doorstep sample pickups—all through the app.

7 Run Staff-Free or Assign Roles for Your Team

From booking to delivery, the platform automates your business. If you still want to delegate, assign roles like receptionist, collector, lab tech, and more.

8 Offer Discounts, Coupons & Promotions Easily

Run seasonal offers or partner discounts with full control over percentage, expiration, and redemption rules—directly from your dashboard.

9 Run as a Franchise or Multi-Branch Model

Manage multiple branches or franchise units from a single admin dashboard—expand like a chain without investing in new tech each time.

10 No Tech Investment or Coding Needed

Get an enterprise-level, app-based digital presence with zero development cost. Focus on diagnostics—we'll handle the technology.

Want to Grow Your Hospital & Nursing home? EasyHealthsBiz is the Answer

- **24x7 Online Presence with Smart Discovery :**

Get listed on the EasyHealths app — attract more patients round-the-clock from local, regional, and even international areas without spending a rupee on marketing.

- **Real-Time Bed Availability & IPD Packages :**

Showcase current bed status (General, Cabin, ICU, NICU, HDU) and room-wise charges with full transparency — build instant patient trust and reduce call-based inquiries.

- **Surgeries with Minimum Package Costs & Benefits :**

Display common surgery options (e.g., cataract, gallbladder, hysterectomy) with starting package prices and inclusions. Help patients plan their treatment and cost in advance.

- **International Patient Assistance :**

Highlight your hospital's foreign patient services, visa assistance, pickup & accommodation help, and specialized care packages for international medical travellers.

- **Second Opinion from Experts:**

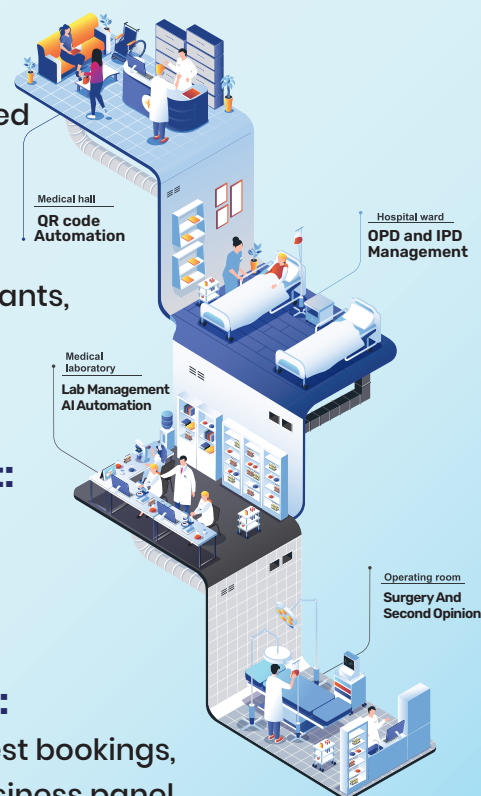

Enable second-opinion bookings with your senior consultants, empowering patients to make informed decisions while showcasing your hospital's expertise.

- **OPD/IPD Auto Scheduling & Roster Management:**

Automate doctor availability and shift duty charts for nursing and support staff, and get live status updates with no manual errors and no paperwork.

- **Smart Dashboard with Daily Business Analytics:**

Track OPD/IPD revenue, department-wise patient stats, test bookings, service trends, and doctor performance from a single business panel.

- **Auto Notifications for Reports, Reminders & Delays**

Inform patients about lab test reports, discharge documents, appointment rescheduling, and reminders — all auto-triggered, reducing support workload.

- **Digital Reports, Audio Advice & E-Prescriptions**

Upload lab results, audio instructions, and digital prescriptions directly to patients' app go paperless while improving clarity and care continuity.

- **Multi-Branch & Franchise Control**

Manage multiple branches, franchises, and outsourced units with a centralized admin system — perfect for scaling up operations smartly.

Special Benefits for Hospitals & Nursing Homes:

- A. No upfront cost for integration
- B. Reduce dependency on manpower by 40–60%
- C. Increase bookings with zero commission
- D. Boost brand trust with real-time digital operations
- E. Govt.-recognized Indian Startup with healthcare focus

Life-Saving Benefits of EasyHealthsBiz Emergency Services

Integrated 24x7 Emergency Doctor Access

Connect patients with on-call doctors instantly—anytime, anywhere. Ideal for urgent medical guidance during late hours or critical episodes.

Real-Time Medicine Delivery (Day & Night)

Enable round-the-clock medicine delivery with live tracking, so patients never run out of essential medications—even at midnight.

24x7 Maternity & Neonatal Care Support

List your on-duty gynecologists, delivery rooms, and emergency maternity care availability. Help patients make quick decisions in urgent situations.

Cardiac & Stroke Emergency

Show real-time availability of cardiac care, stroke units, or cath labs for fast intervention—critical for saving lives during the golden hour.

GPS-Enabled Ambulance Booking with ETA

Let users book the nearest available ambulance instantly via app track ETA, live location, and arrival status with zero call waiting.

Accident & Trauma Care Accessibility

Highlight your trauma center and fast-track emergency admission options. Reduce response time and increase survival chances in severe cases.

24x7 Blood Bank & Oxygen Availability

Display your current blood stock (group-wise) and oxygen supply status. Make it discoverable instantly when someone nearby is in need.

On-Demand Toxicology & Poison Control Services

Enable users to access poison control specialists or facilities within minutes, especially vital for pediatric and accidental exposure cases.

Top 10 Reasons to Give Home Health Services with EasyHealthsBiz.

- 1. Doctor at Doorstep Services :** Enable patients to book a qualified doctor to visit them at home—perfect for elderly, immobile, or post-operative patients who need in-person care.
- 2. 24x7 Medicine Door Delivery :** Let your pharmacy or partnered outlet deliver prescribed medicines right to the patient's home—on time, every time.
- 3. Home Nursing Care for All Ages :** Provide trained nurses for mother & child care, elder care, critical care, and post-surgical recovery—customized duration and schedules.
- 4. Diagnostics from Home (Test Booking & Sample Collection) :** Allow users to book lab tests and get samples collected from home—results delivered digitally without stepping out.
- 5. Home Vaccination Programs :** Support doorstep vaccinations for children, seniors, or travel-related immunizations with auto-reminder and certification systems.
- 6. Physiotherapy at Home :** Offer therapy sessions from certified physiotherapists right at the patient's home—bookable via app with feedback and session tracking.
- 7. Medical Equipment Rentals :** Rent out hospital beds, wheelchairs, oxygen cylinders, CPAP, and other devices directly through the platform—convenient and affordable.
- 8. Home Counselling & Mental Wellness :** Provide access to psychological counselors and therapists for at-home sessions, preserving privacy and emotional comfort.
- 9. Corporate & Group Health Checkups :** Schedule and manage group health checkups for offices, societies, and residential complexes—complete with reporting and follow-up tracking.
- 10. Home ICU & Advanced Monitoring Setup :** Allow critical patients to access ICU-level care at home with trained staff and live monitoring features—ideal for long-term recovery.

By partnering with us, you can build transparency, enhance your reputation, and attract more patients who value genuine care. We help you create an environment where every patient review reflects the exceptional service you provide.
